## **DETAILED ACTION**

### ***Response to Amendment***

Applicants' amendment filed 5/23/2006 effectively puts the application in condition for allowance, and therefore entered.

### ***Allowable Subject Matter***

Claims 1-8, 11-14, 33-36, 38-42, 44-49, 51-54, 57-62, 66 are allowed.

The following is an examiner's statement of reasons for allowance:

All non-allowable claims are cancelled by the amendment. All pending claims now contain allowable subject matter discussed in the previous office action. In addition to the examiner's indication of allowable subject matter discussed in the previous office action, none of the prior art fairly teaches or suggests an optical fiber (and a method of forming an optical fiber) wherein the optical fiber core is coated with a thixotropic cladding layer and wherein the core is negatively charged, the inner layer is positively charged, and further the outer layer is negatively charged, as claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2874
